

## Progression

An encounter not expected, left up to the fates;  
It's begun, progression, glances, looks, stares,  
Gazes, brushing against, gazes, holding;

Knowing and now bonding, lost, but  
Found; progression, beyond casual,  
Embraces, sliding over, embraces, caressing;

Intimately aware, comfortable, acceptance;  
The moment, progression, share, release, express,  
Opens, letting in, opens, combining;

Pushing on, peaks and valleys, steady;  
Discovery, progression, too close, rose tint lifted,  
Shouts, backing away, shouts, not running;

For real this time, constant uncertainty, the one;  
Learning, progression, working, battling, surviving,  
Talks, laying next to, talks, wrapping around.
